PROFILE

I am a Software Analysis and Development student at the Faculty of Technology of Campinas, a software developer, and an active competitor in programming marathons. I have a strong aptitude for logical reasoning, as well as experience in developing solutions using C# with .NET and creating scripts in Python.

ACADEMIC BACKGROUND

Technology Degree in Software Analysis and Development

 Faculty of Technology of Campinas - FATEC.

 Campinas, São Paulo

 2023 - 2026

Student in the course MC621 - Programming Challenges II

 Institute of Computing - UNICAMP.

 Campinas, São Paulo

 2024

ADDITIONAL EDUCATION

Java Cloud Native

 Bradesco - DIO.

 2024

Amazon AWS Certified Cloud Practitioner CLF-C02 Certification

 Udemy

 2024

CERTIFICATIONS

Test of English for International Communication (TOEIC)

- B1 level on the CEFR scale (certificate obtained in 2025).

EXPERIENCE

InterFatecs Programming Marathon - 2024 Edition

In the first stage, my team and I achieved 2nd place at Fatec Campinas and 21st place in the state ranking, securing our spot in the final. All exercises were solved using C++.

Software Development Intern

 RM Mais - Structural Project

 Vinhedo, São Paulo

 2025

I work on the maintenance and implementation of desktop and web applications, with a focus on development in C# and Python. On a daily basis, I use frameworks such as .NET, WPF, and Blazor, in addition to creating automations in VBA.
